Stories from the Vinyl Cafe Stuart McLean 2009-09-29 Like an old friend who's turned up in town, Stuart McLean returns with "Stories from the Vinyl Cafe," his bestselling collection of tales based on his enormously popular Vinyl Cafe radio program. The collection features Canada's much-loved fictional family: Dave, Morley, Stephanie and Sam. Stories from the Vinyl Cafe also introduces a host of other wonderfully imagined characters, such as Margaret Dwyer, a suburban housewife who startles herself by shoplifting a pepperoni sausage, and Flora Perriton, who is consumed with thoughts of lost opportunities when an old friend passes away. Then there's Ed, who-overcome by the death of his favourite rock star-embarks on a pilgrimage to New York City to meet the singer's widow. As always, the stories in this rewarding and irreverent collection prove that Stuart McLean is indeed a national treasure.

Lawn Boy Jonathan Evison 2019-03-19 Winner of the Alex Award "Mike Muñoz Is a Holden Caulfield for a New Millennium--a '10th-generation peasant with a Mexican last name, raised by a single mom on an Indian reservation' . . . Evison, as in his previous four novels, has a light touch and humorously guides the reader, this time through the minefield that is working-class America." --The New York Times Book Review For Mike Muñoz, life has been a whole lot of waiting for something to happen. Not too many years out of high school and still doing menial work--and just fired from his latest gig as a lawn boy on a landscaping crew--he's smart enough to know that he's got to be the one to shake things up if he's ever going to change his life. But how? He's not qualified for much of anything. He has no particular talents, although he is stellar at handling a lawn mower and wielding clipping shears. But now that career seems to be behind him. So what's next for Mike Muñoz? In this funny, biting, touching, and ultimately inspiring novel, bestselling author Jonathan Evison takes the reader into the heart and mind of a young man determined to achieve the American dream of happiness and prosperity--who just so happens to find himself along the way.

City of Iron and Dust J.P. Oakes 2021-07-06 Fast-paced and razor-sharp dark fantasy for readers of Nicholas Eames, Anna Smith Spark and Robert Jackson Bennett "A fantastic book, full of wit and sharp humor, City of Iron and Dust careens through a modernized faerie at a breakneck pace, full of verve and unforgettable characters. Oakes spins a smart, electric, and sometimes snarky tale, showing that the beating heart of modern fantasy is alive and well." – John Hornor Jacobs, author of A Lush and Seething Hell and The Incorruptibles The Iron City is a prison, a maze, an industrial blight. It is the result of a war that saw the goblins grind the fae beneath their collective boot heels. And tonight, it is also a city that churns with life. Tonight, a young fae is trying to make his fortune one drug deal at a time; a goblin princess is searching for a path between her own dreams and others' expectations; her bodyguard is deciding who to kill first; an artist is hunting for his own voice; an old soldier is starting a new revolution; a young rebel is finding fresh ways to fight; and an old goblin is dreaming of reclaiming her power over them all. Tonight, all their stories are twisting together, wrapped up around a single bag of Dust--the only drug that can still fuel fae magic--and its fate and theirs will change the Iron City forever.

Hand Sewing Clothing Louisa Sonstroem 2021-03-16 For those seeking a slower, gentler way to make clothes, this book will serve as a guide to sewing clothing by hand -- without use of a sewing machine. Learn the techniques needed to stitch sturdy, modern adult clothing by hand. Ponder the bigger picture with several contextual essays, and then settle in for storytime, as you read a set of stories about hand-sewn clothes. Hand sewing clothing can be a radical act of slow fashion. Reclaim the democratic, accessible, ancient power of sewing that needs no machine.

The Zona Nathan L. Yocum 2012-02 It started with the Storms.The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled.The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting.Welcome to the Arizona Reformed Theocracy, otherwise called The Zona.Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen.But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

A Tutorial on Elliptic PDE Solvers and Their Parallelization Craig C. Douglas 2003-01-01 This compact yet thorough tutorial is the perfect introduction to the basic concepts of solving partial differential equations (PDEs) using parallel numerical methods. In just eight short chapters, the authors provide readers with enough basic knowledge of PDEs, discretization methods, solution techniques, parallel computers, parallel programming, and the run-time behavior of parallel algorithms to allow them to understand, develop, and implement parallel PDE solvers. Examples throughout the book are intentionally kept simple so that the parallelization strategies are not dominated by technical details.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State--and having at the end of that time been kidnapped and sold into slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years--it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Thanksgiving Barbara Rainey 2003 A beautiful book that not only helps families develop traditions based on the significance of Thanksgiving, but also builds a foundation of gratefulness in their lives.

308 Circuits Jan Buiting 2003 This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Brand Hate S. Umit Kucuk 2018-09-29 This book focuses on the concept of "brand hate" and consumer negativity in today's digital markets. It explores the emotional detachment consumers generate against valued brands and how negative experiences affect their and other consumers' loyalty. It is almost impossible not to run into hateful language about companies and their brands in today's digital consumption spaces. Consumer hostility and hate is not hidden and silent anymore but is now openly shared on many online anti-brand websites, consumer social networking sites, and complaint and review boards. The book defines consumer brand hate and discusses its dimensions, antecedents, and consequences as well as the semiotics and legality of such brand hate activities based on current brand dilution arguments. It describes the situations which lead to anti-branding and how consumers choose to express their dissatisfaction with a company on individual and social levels. This newly updated edition discusses recent research findings from brand hate literature with new cases and extended managerial analysis. Thus, the book provides strategic perspectives on how to handle such situations to achieve better functioning markets for scholars and practitioners in marketing, psychology, and consumer behavior.

Reliability and Risk Modeling of Engineering Systems Dilbagh Panchal 2021-05-21 This book addresses reliability, maintenance, risk, and safety issues of industrial systems with applications of the latest decision-making techniques. Thus, this book presents chapters that apply advanced tools, techniques, and computing models for optimizing the performance of industrial and manufacturing systems, along with other complex engineering equipment. Computing techniques like data analytics, failure mode and effects analysis, fuzzy set theory, petri-net, multi-criteria decision-making (MCDM), and soft computing are used for solving problems of reliability, risk, and safety related issues.

Developing and Sustaining Play Therapy Clinics Dugan, Erin M. 2019-04-26 Play therapy training clinics are an important aspect of the clinical mental health field. An approved play therapy training center should offer direct play therapy services to children and families and provide quality education, training, research, and supervision. While each setting may have a set of contractual standards for supervision, few offer advice for setting up such approved centers and training clinics. Developing and Sustaining Play Therapy Clinics is a collection of innovative research on policies and procedures for university-based play therapy clinical settings to help guide practitioners in multiple areas including emergency and crisis situations, paperwork requirements, and mandated reporting requirements. While highlighting topics including adventure therapy, clinic branding, and playroom design, this book is ideally designed for clinic directors, psychologists, psychiatrists, play therapy practitioners, academics, administrative supervisors, and researchers.

Medical Anthropology Andrea S. Wiley 2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

The Colour Of Walls Thomas King 2012-12-18 Harper Stevenson wants crisp, white, clean walls in his office. But walls have a history and a memory that can't simply be painted over. A Short History of Indians in Canada, Thomas King's bestselling collection of twenty tales, is a comic tour de force, showcasing the author at his hilarious and provocative best. With his razor-sharp observations and mystical characters, including the ever-present and ever-changing Coyote, King pokes a sharp stick into the gears of the Native myth-making machine, exposing the underbelly of both historical and contemporary Native-White relationships. Through the laughter, these stories shimmer brightly with the universal truths that unite us. HarperCollins brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperCollins short-stories collection to build your digital library.
