World's Worst Day Ever Craig Martelle 2017-05 A resource for fans of The Kurtherian Gambit. End of the world as we know it. Plausible. Scary in its simplicity. Horrible in its effect. Set in the Kurtherian Gambit Universe, this story explains how a few mistakes can have grave consequences. Unfortunately, the technology in the following short story is real. Yes, this could happen. Dammit. Who wants to really dwell on these things? This story was written by Craig Martelle, based on the original WWDE Document as authored by Jeff Morris. You get both in this one short story which gives you insight into how a fiction author takes a technical document and makes a story out of it. Otherwise, I would label this, "Crap, I don't want to ever, ever, ever think about."

Merrily we roll along Stephen Sondheim

Atrocities: The 100 Deadliest Episodes in Human History Matthew White 2011-11-07 Presents both hard facts and military, social, and political histories of the world's one hundred most violent events, from the second Persian War in 480 BCE to the modern war in the Congo.
The Progress Principle Teresa Amabile 2011-07-19 What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in *The Progress Principle*, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, *The Progress Principle* equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

The Best Christmas Pageant Ever Barbara Robinson 1983 The six mean Herdman kids lie, steal, smoke cigars (even the girls) and then become involved in the community Christmas pageant.

How To Stop Worrying And Start Living Dale Carnegie 2022-05-17 The goal of *How To Stop Worrying And Start Living* is to lead the reader to a more enjoyable and fulfilling life, helping them to become more aware of, not only themselves, but others around them. Carnegie tries to address the everyday nuances of living, in order to get the reader to focus on the more important aspects of life. x000D_ Dale Carnegie (1888-1955) was an American writer and lecturer and the developer of famous courses in self-improvement, salesmanship, corporate training, public speaking, and interpersonal skills. Born into poverty on a farm in Missouri, he was the author of *How to Win Friends and Influence People* (1936), a massive bestseller that remains popular today. He also wrote *How to Stop Worrying and Start Living* (1948), *Lincoln the Unknown* (1932), and several other books.

Innovation + Equality Joshua Gans 2019-10-29 How to get more innovation and more equality. Is economic inequality the price we pay for innovation? The amazing technological advances of the last two decades—in such areas as artificial intelligence, genetics, and materials—have benefited society collectively and rewarded innovators handsomely: we get cool smartphones and technology moguls become billionaires. This contributes to a growing wealth gap; in the United States; the wealth controlled by the top 0.1 percent of households equals that of the bottom ninety percent. Is this the inevitable cost of an innovation-driven economy? Economist Joshua Gans and policy maker Andrew Leigh make the case that pursuing innovation does not mean giving up on equality—precisely the opposite. In this book, they outline ways that society can become both more entrepreneurial and more egalitarian. All innovation entails uncertainty; there's no way to predict which new technologies will catch on. Therefore, Gans and Leigh argue, rather than betting on the future of particular professions, we should consider policies that embrace uncertainty and protect people from unfavorable outcomes. To this end, they suggest policies that promote both innovation and equality. If we encourage innovation in the right way, our future can look more like the cheerful techno-utopia of *Star Trek* than the dark techno-dystopia of *The Terminator*.

Reducing Underage Drinking Institute of Medicine 2004-03-26 Alcohol use by young people is extremely dangerous - both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks â€" and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and who is responsible for making sure it happens? *Reducing Underage Drinking* addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which may different individuals and groups contribute to the problem and how they can be enlisted to prevent it. *Reducing Underage Drinking* will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

The Worst Thing I've Done Ursula Hegi 2009-04-06 Friends since childhood, Annie, Jake and Mason had a special bond that transcended all other relationships. When Annie's parents die on her and Mason's wedding night, the three friends decide to raise Annie's infant sister, Opal, together. Entangled relationships ensue between them and Annie struggles to be both a sister and a mother to Opal. And then, on one fateful night, the friends step over a line that has shocking, unforeseen consequences. Beautifully written and brilliantly vivid, this truth-telling and engaging novel of friendship, love and death and -- ultimately -- of resilience and understanding, will resonate long after each character tells their story.

How to Survive the Worst That Can Happen Sandy Peckinpah 2014-02-27 Sandy Peckinpah's sixteen-year old son woke up with a fever and was dead the next morning of bacterial meningitis... her life changed forever. She found herself in the depths of unimaginable despair.

Then, someone gave her a journal, and writing opened her journey of self-discovery in learning how to live life without her beautiful child. Words illuminated her path of discovery and she began to document the things that helped her, and others like her, to find resilience. This is a practical, inspirational guide to coping with the many facets of bereavement; learning how to talk about your loss, the aftermath of sorrow, handling fear and anger, helping your living children adjust, strengthening your marriage, experiencing miracles, and the promise that you will regain a quality of life where you'll feel joy once again. If you've lost a child or know someone who has, this story is one you'll relate to and find comfort in knowing you're not alone. Sandy is a mother who has experienced it, and she's a Certified Grief Recovery Specialist® from the Grief Recovery Institute® in Los Angeles.

What Happened in Craig Leland E. Hale 2018-09-18 On a foggy afternoon in September of 1982 the Investor, a salmon fishing vessel, was engulfed in flames near the tiny village of Craig, Alaska. All efforts to stop the blaze were repulsed by the heat and fury of fire--until the blaze had run its course. Eight people, including a pregnant woman and two small children, were missing. On the charred wreck of the Investor, troopers hoped to find evidence that the fire was accidental, and that the crew and family were away from the scene. Instead, they found bullet-ridden bodies. The investigation of the case and arrest of a former crewmember of the Investor became a nationwide sensation, with headlines appearing in the New York Times and People Magazine. John Kenneth Peel, a Bellingham fisherman was the center of the investigation and eventual trials for murder and arson. Convoluted motivations, family secrets, a lawyer bent on protecting his client, family members of the victims seeking answers swirl into a story only one person can know--and he isn't telling. Leland Hale, author of *Butcher, Baker: The True Account of an Alaskan Serial Killer*, meticulously researched the events of the Investor tragedy, and when alibis don't line up and witnesses doubt their own memory, Hale's narrative pulls the unraveling story together into a book that will keep your attention long after you turn the final page.

The Worst Best Man Mia Sosa 2020-02-04 USA TODAY BESTSELLER! "A romantic comedy that's fun and flirty, young and fresh." - PopSugar Named one of the Best Romances of 2020 by EW, Cosmo, OprahMag, Buzzfeed, Insider, and NPR! Mia Sosa delivers a sassy, steamy #ownvoices enemies-to-lovers novel, perfect for fans of Jasmine Guillory, Helen Hoang, and Sally Thorne! A wedding planner left at the altar? Yeah, the irony isn't lost on Carolina Santos, either. But despite that embarrassing blip from her past, Lina's offered an opportunity that could change her life. There's just one hitch... she has to collaborate with the best (make that worst) man from her own failed nuptials. Marketing expert Max Hartley is determined to make his mark with a coveted hotel client looking to expand its brand. Then he learns he'll be working with his brother's whip-smart, stunning—absolutely off-limits—ex-fiancée. And she loathes him. If they can nail their presentation without killing each other, they'll both come out ahead. Except Max has been public enemy number one ever since he encouraged his brother to jilt the bride, and Lina's ready to dish out a little payback of her own. Soon Lina and Max discover animosity may not be the only emotion creating sparks between them. Still, this star-crossed couple can never be more than temporary playmates because Lina isn't interested in falling in love and Max refuses to play runner-up to his brother ever again... "The Worst Best Man is rom-com perfection. . . Sosa has a gift with words that's infectious and wry, one that keeps the pages turning in delight." — Entertainment Weekly

Phantom Plague Vidya Krishnan 2022-02-01 The definitive social history of tuberculosis, from its origins as a haunting mystery to its modern reemergence that now threatens populations around the world. It killed novelist George Orwell, Eleanor Roosevelt, and millions of others - rich and poor. Desmond Tutu, Amitabh Bachchan, and Nelson Mandela survived it, just. For centuries, tuberculosis has ravaged cities and plagued the human body. In *Phantom Plague*, Vidya Krishnan, traces the history of tuberculosis from the slums of 19th-century New York to modern Mumbai. In a narrative spanning century, Krishnan shows how superstition and folk-remedies, made way for scientific understanding of TB, such that it was controlled and cured in the West. The cure was never available to black and brown nations. And the tuberculosis bacillus showed a remarkable ability to adapt - so that at the very moment it could have been extinguished as a threat to humanity, it found a way back, aided by authoritarian government, toxic kindness of philanthropists, science denialism and medical apartheid. Krishnan's original reporting paints a granular portrait of the post-antibiotic era as a new, aggressive, drug resistant strain of TB takes over. *Phantom Plague* is an urgent, riveting and fascinating narrative that deftly exposes the weakest links in our battle against this ancient foe.

Worst Cases Lee Clarke 2021-04-02 Al Qaeda detonates a nuclear weapon in Times Square during rush hour, wiping out half of Manhattan and killing 500,000 people. A virulent strain of bird flu jumps to humans in Thailand, sweeps across Asia, and claims more than fifty million

lives. A single freight car of chlorine derails on the outskirts of Los Angeles, spilling its contents and killing seven million. An asteroid ten kilometers wide slams into the Atlantic Ocean, unleashing a tsunami that renders life on the planet as we know it extinct. We consider the few who live in fear of such scenarios to be alarmist or even paranoid. But Worst Cases shows that such individuals—like Cassandra foreseeing the fall of Troy—are more reasonable and prescient than you might think. In this book, Lee Clarke surveys the full range of possible catastrophes that animate and dominate the popular imagination, from toxic spills and terrorism to plane crashes and pandemics. Along the way, he explores how the ubiquity of worst cases in everyday life has rendered them ordinary and mundane. Fear and dread, Clarke argues, have actually become too rare: only when the public has more substantial information and more credible warnings will it take worst cases as seriously as it should. A timely and necessary look into how we think about the unthinkable, Worst Cases will be must reading for anyone attuned to our current climate of threat and fear.

What's the Worst That Could Happen? Donald E. Westlake 2001-04-11 It started with a ring. A cheap ring. The yellow metal said brass, not gold, and the sparkly bits were certainly not diamonds. But the ring belonged to May's horseplaying uncle, who swore it brought good luck. Dortmund, who wouldn't kick a little good luck out of bed, puts it to the test when he goes to burglarize Long Island billionaire Max Fairbanks. As luck would have it, Dortmund is greeted by Fairbanks himself - and a loaded gun - as soon as he strolls through the door. When the cops arrive, the mogul adds insult to injury by claiming that Dortmund's lucky ring is actually his. Big mistake, big guy. As soon as Dortmund can give the cops the slip, the world's most single-minded burglar goes after the fat cat with a vengeance and a team of crooks that only he can assemble. And from the get go everything will go Dortmund's way - everything, that is, except the ring.

Heroin Is the Worst Thing to Ever Happen to Me Alicia Cook 2017-01-26 In 2015, 52,000 people in the United States overdosed on drugs and died. Never in recorded history had narcotics killed so many Americans in a single year. According to New York Magazine, the drug-induced death toll was so staggering, it helped reduce life expectancy in the United States for the first time since 1993. Heroin is the Worst Thing to Ever Happen to Me, named after an essay of Cook's that was read over 1.2 million times, is a collection of essays on the topic of addiction both previously published in Cook's "The Other Side of Addiction" series and unpublished. The book is designed to simultaneously inform and comfort those affected by the disease of addiction, particularly the families who bear witness to their loved ones' downward spiral into the world of addiction. Having addiction enter one's home can be isolating and terrifying. There are very little resources made available to the family members of those who become addicted to a substance. This book provides those enduring this utter nightmare with narratives and resources (terminology, additional reading in footnotes, and information on virtual/physical organizations) to empower the reader to push back against the stigma, statistics, and heartache attached to drug and alcohol addiction. In the following pages, you will hear from people who have "been there." Everyday warriors who fight tirelessly and endlessly to create change, in hopes another is saved from the same fate. Though some names have been changed, the pages contain real accounts from real people who battle addiction and are in recovery or love someone who struggles with addiction. Foreword written by PBS Executive Producer, Steve Rogers and Afterword written by State Congressman, Tom MacArthur. Alicia Cook is an established author and activist from New Jersey, where the rate of heroin overdose is three times the national average. Her work has appeared on the Huffington Post, CNN, USA Today, Teen Vogue, and many more. Her best-selling book of poetry, "Stuff I've Been Feeling Lately", was a finalist in the 2016 Goodreads Choice Awards and her series, "The Other Side of Addiction", which focuses on the direct effect addiction has on not only users, but their families, is read by millions of people across the country. Her efforts to combat the heroin epidemic, which include writing, appearing on podcasts, and speaking to students and their parents, caught the attention of PBS Executive Producer, Steve Rogers who created an episode of his Emmy-nominated documentary series, "Here's the Story" around Cook and her efforts entitled "A Family Disease." The episode was dedicated to Cook's cousin, Jessica, who passed away from a drug overdose in 2006.

Middle School, The Worst Years of My Life Chris Tebbetts 2016-08-23 Bestselling author James Patterson's most beloved middle grade protagonist, Rafe Khatchadorian, is getting the Hollywood treatment! A film version of Middle School: The Worst Years of My Life starring Griffin Gluck, Lauren Graham, Rob Riggle, and Thomas Barbusca smashes into theaters in October 2016. In his acclaimed and number-one bestselling middle-grade comic debut, Children's Choice Award Author of the Year James Patterson has never been more hilarious--or heartwarming. Rafe Khatchadorian has enough problems at home without throwing his first year of middle school into the mix. Luckily, he's got an ace plan for the best year ever, if only he can pull it off: With his best friend Leonardo the Silent awarding him points, Rafe tries to break every rule in his school's oppressive Code of Conduct. Chewing gum in class--5,000 points! Running in the hallway--10,000 points! Pulling the fire alarm--50,000 points! But when Rafe's game starts to catch up with him, he'll have to decide if winning is all that matters, or if he's finally ready to face the rules, bullies, and truths he's been avoiding. James Patterson's debut middle-grade novel addresses some of middle schoolers' biggest issues: bullies, first crushes, and finding out what makes each of us special, all with a hilarious main character and fantastic in-text illustrations that are sure to have young readers begging for more!

What's the Worst That Could Happen? Greg Craven 2009-07-07 7.2 million YouTube viewers can't be wrong: A provocative new way to look at the global warming debate. Based on a series of viral videos that have garnered more than 7.2 million views, this visually appealing book gives readers-be they global warming activists, soccer moms, or NASCAR dads-a way to decide on the best course of action, by asking them to consider, "What's the worst that could happen?" And for those who decide that action is needed, Craven provides a solution that is not only powerful but also happens to be stunningly easy. Not just another "change your light bulb" book, this intriguing and provocative guide is the first to help readers make sense-for themselves-of the contradictory statements about global climate change. The globe is warming! or The globe is not warming. We're the ones doing it! or It's a natural cycle. It's gonna be a catastrophe! or It'll be harmless. This is the biggest threat to humankind! or This is the biggest hoax in history. Watch a Video

Any Ordinary Day Leigh Sales 2019-02 As a journalist, Leigh Sales often encounters people experiencing the worst moments of their lives in the full glare of the media. But one particular string of bad news stories - and a terrifying brush with her own mortality - sent her looking for answers about how vulnerable each of us is to a life-changing event. What are our chances of actually experiencing one? What do we fear most and why? And when the worst does happen, what comes next? In this wise and layered book, Leigh talks intimately with people who've faced the unimaginable, from terrorism to natural disaster to simply being in the wrong place at the wrong time. Expecting broken lives, she instead finds strength, hope, even humour. Leigh brilliantly condenses the cutting-edge research on the way the human brain processes fear and grief, and poses the questions we too often ignore out of awkwardness. Along the way, she offers an unguarded account of her own challenges and what she's learned about coping with life's unexpected blows. Warm, candid and empathetic, this book is about what happens when ordinary people, on ordinary days, are forced to suddenly find the resilience most of us don't know we have.

Let Them Lead John U. Bacon 2021-09-07 An uplifting leadership book about a coach who helped transform the nation’s worst high school hockey team into one of the best. Bacon’s strategy is straightforward: set high expectations, make them accountable to each other, and inspire them all to lead their team. When John U. Bacon played for the Ann Arbor Huron High School River Rats, he never scored a goal. Yet somehow, years later he found himself leading his alma mater’s downtrodden program. How bad? The team hadn’t won a game in over a year, making them the nation’s worst squad—a fact they celebrated. With almost everyone expecting more failure, Bacon made it special to play for Huron by making it hard, which inspired the players to excel. Then he defied conventional wisdom again by putting the players in charge of team discipline, goal-setting, and even decision-making – and it worked. In just three seasons the River Rats bypassed 95-percent of the nation’s teams. A true story filled with unforgettable characters, stories, and lessons that apply to organizations everywhere, Let Them Lead includes the leader’s mistakes and the reactions of the players, who have since achieved great success as leaders themselves. Let Them

Lead is a fast-paced, feel-good book that leaders of all kinds can embrace to motivate their teams to work harder, work together, and take responsibility for their own success.

After the Worst Thing Happens Audrey Vernick 2020-07-07 Left reeling after her thoughtless mistake causes a terrible accident, 12-year-old Army Morand channels her grief to help someone in need. Army Morand feels like her life has been blown to bits when the worst thing imaginable happens--her beloved dog dies. It was an accident, but it was also Army's fault. She can't seem to stop hiding from everything and everybody including her best friend JennaLouise. But then Army sees Madison, the little girl who moved in across the way, climbing a tree and walking down the street unsupervised. Her family is not neglectful, just overwhelmed. Army finds herself overcome with the need to help Madison's family to make sure another worst thing doesn't happen--which becomes even more challenging when a big storm threatens her town. After the Worst Thing Happens is a bittersweet story about a girl surprised by the force of a growing need inside her to reach out and lend a hand while trying to escape the swirling sadness of her own sudden loss. In the end, it is about finding love and hope and friendship in very surprising places.

Ask a Manager Alison Green 2018-05-01 From the creator of the popular website Ask a Manager and New York’s work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There’s a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don’t know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* *Never Saw It Coming* Karen A. Cerulo 2008-09-15 People—especially Americans—are by and large optimists. They’re much better at imagining best-case scenarios (I could win the lottery!) than worst-case scenarios (A hurricane could destroy my neighborhood!). This is true not just of their approach to imagining the future, but of their memories as well: people are better able to describe the best moments of their lives than they are the worst. Though there are psychological reasons for this phenomenon, Karen A.Cerulo, in *Never Saw It Coming*, considers instead the role of society in fostering this attitude. What kinds of communities develop this pattern of thought, which do not, and what does that say about human ability to evaluate possible outcomes of decisions and events? Cerulo takes readers to diverse realms of experience, including intimate family relationships, key transitions in our lives, the places we work and play, and the boardrooms of organizations and bureaucracies. Using interviews, surveys, artistic and fictional accounts, media reports, historical data, and official records, she illuminates one of the most common, yet least studied, of human traits—a blatant disregard for worst-case scenarios. *Never Saw It Coming*, therefore, will be crucial to anyone who wants to understand human attempts to picture or plan the future. “In *Never Saw It Coming*, Karen Cerulo argues that in American society there is a ‘positive symmetry,’ a tendency to focus on and exaggerate the best, the winner, the most optimistic outcome and outlook. Thus, the conceptions of the worst are underdeveloped and elided. Naturally, as she masterfully outlines, there are dramatic consequences to this characterological inability to imagine and prepare for the worst, as the failure to heed memos leading up to both the 9/11 and NASA Challenger disasters, for instance, so painfully reminded us.”--Robin Wagner-Pacifici, Swarthmore College “Katrina, 9/11, and the War in Iraq—all demonstrate the costliness of failing to anticipate worst-case scenarios. *Never Saw It Coming* explains why it is so hard to do so: adaptive behavior hard-wired into human cognition is complemented and reinforced by cultural practices, which are in turn institutionalized in the rules and structures of formal organizations. But Karen Cerulo doesn’t just diagnose the problem; she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well. *Never Saw It Coming* is a powerful contribution to the emerging fields of cognitive and moral sociology.”--Paul DiMaggio, Princeton University *The Worst Witch* Jill Murphy 2011-03-03 'Riding a broomstick is no easy matter!' Lovable but disaster-prone Mildred is a trainee at Miss Cackle's Academy for Witches, but she's making an awful mess of it. She keeps getting her spells wrong and crashing her broomstick. Yet she manages to scrape by until she turns Ethel, the teacher's pet, into her deadly enemy and chaos ensues . . . Jill Murphy's much-loved classic is full of fun, magic and mayhem! Also in The Worst Witch series: *The Worst Witch Strikes Again* *A Bad Spell for the Worst Witch* *The Worst Witch All at Sea* *The Worst Witch Saves the Day* *The Worst Witch to the Rescue* *The Worst Witch* and the *Wishing Star* *First Prize for the Worst Witch*

Randomistas Andrew Leigh 2018-07-24 A fascinating account of how radical researchers have used experiments to overturn conventional wisdom and shaped life as we know it Experiments have consistently been used in the hard sciences, but in recent decades social scientists have adopted the practice. Randomized trials have been used to design policies to increase educational attainment, lower crime rates, elevate employment rates, and improve living standards among the poor. This book tells the stories of radical researchers who have used experiments to overturn conventional wisdom. From finding the cure for scurvy to discovering what policies really improve literacy rates, Leigh shows how randomistas have shaped life as we know it. Written in a “Gladwell-esque” style, this book provides a fascinating account of key randomized control trial studies from across the globe and the challenges that randomistas have faced in getting their studies accepted and their findings implemented. In telling these stories, Leigh draws out key lessons learned and shows the most effective way to conduct these trials.

Adults that struggled with shyness as children will also see themselves reflected in this book.

Hidden in Plain Sight Peter J. Wallison 2016-03-29 The 2008 financial crisis—like the Great Depression—was a world-historical event. What caused it will be debated for years, if not generations. The conventional narrative is that the financial crisis was caused by Wall Street greed and insufficient regulation of the financial system. That narrative produced the Dodd-Frank Act, the most comprehensive financial-system regulation since the New Deal. There is evidence, however, that the Dodd-Frank Act has slowed the recovery from the recession. If

insufficient regulation caused the financial crisis, then the Dodd-Frank Act will never be modified or repealed; proponents will argue that doing so will cause another crisis. A competing narrative about what caused the financial crisis has received little attention. This view, which is accepted by almost all Republicans in Congress and most conservatives, contends that the crisis was caused by government housing policies. This book extensively documents this view. For example, it shows that in June 2008, before the crisis, 58 percent of all US mortgages were subprime or other low-quality mortgages. Of these, 76 percent were on the books of government agencies such as Fannie Mae and Freddie Mac. When these mortgages defaulted in 2007 and 2008, they drove down housing prices and weakened banks and other mortgage holders, causing the crisis. After this book is published, no one will be able to claim that the financial crisis was caused by insufficient regulation, or defend Dodd-Frank, without coming to terms with the data this book contains.

The Worst Thing She Ever Did Alice Kuipers 2012-05-15 All Sophie wants is to forget what happened last summer. But that's not easy when people keep asking if she's okay, and her mother locks herself behind closed doors for hours at a time. And now her best friend, Abigail, cares more about parties and boys than about hanging out with Sophie. Lost in memories of the life she had before that terrible day, Sophie retreats into herself. But it's only so long before she must confront the tragedy of her past so she can face the future.

What's the Worst That Could Happen? Andrew Leigh 2021-11-09 Why catastrophic risks are more dangerous than you think, and how populism is making them worse. Did you know that you're more likely to die from a catastrophe than in a car crash? The odds that a typical US resident will die from a catastrophic event—for example, nuclear war, bioterrorism, or out-of-control artificial intelligence—have been estimated at 1 in 6. That's fifteen times more likely than a fatal car crash and thirty-one times more likely than being murdered. In *What's the Worst That Could Happen?*, Andrew Leigh looks at catastrophic risks and how to mitigate them, arguing provocatively that the rise of populist politics makes catastrophe more likely. Leigh explains that pervasive short-term thinking leaves us unprepared for long-term risks. Politicians sweat the small stuff—granular policy details of legislation and regulation—but rarely devote much attention to reducing long-term risks. Populist movements thrive on short-termism because they focus on their followers' immediate grievances. Leigh argues that we should be long-termers: broaden our thinking and give big threats the attention and resources they need. Leigh outlines the biggest existential risks facing humanity and suggests remedies for them. He discusses pandemics, considering the possibility that the next virus will be more deadly than COVID-19; warns that unchecked climate change could render large swaths of the earth uninhabitable; describes the metamorphosis of the arms race from a fight into a chaotic brawl; and examines the dangers of runaway superintelligence. Moreover, Leigh points out, populism (and its crony, totalitarianism) not only exacerbates other dangers but is also a risk factor in itself, undermining the institutions of democracy as we watch.
